

Nude Food Day

Next Friday (17th September) we are encouraging students to bring a **Nude Food Lunch Box**. At the beginning of this term Learner Voice representatives participated in an excursion to the Wingfield Waste Recycling Centre. It was an eye-opening experience to see how much of our waste goes to landfill and we are keen to reduce our school's impact on the environment. We also want to assist Mr Bolt, our groundskeeper, by reducing the amount of rubbish floating around our school grounds.

So what is a ***Nude Food Lunch Box***?

The aim of a Nude Food Lunch Box is to reduce the amount of packaging in our lunchboxes and therefore, our classrooms and our yard. With a few simple tweaks to our usual routines we can significantly reduce our waste. So what can we do?

- Buy large bags of chips/biscuits and put individual amounts into small reusable containers
- Reduce the need to use zip lock bags and plastic wrap
- Bring home made snacks or fruits and vegetables
- Use environmentally friendly wraps such as paper, beeswax wraps etc

*Help us to reduce
our impact on our
precious
environment!!*
